STORAGE SOLUTIONS

We've got a number of ways for you to store, organize and keep your gear dry and easy to find while touring. From dry sacks and compression bags, to mesh and ditty sacks, you'll never wonder where you placed an item again.

TIRE REPAIR THAT WORKS

Most tire repairs can be solved in 20 minutes or less if you have the right items along—and a lot of riders don't. We don't think much of most motorcycle tire repair kits on the market, so we created our own using top grade vulcanizing strips and patches, instead of sticky strings and mushroom plugs that don't adhere to tires. You need a good kit, some air and a gauge. We have it all in one place. We have pumps & gauges too!

We also offer tours and camping gear rentals. Visit www.soundrider.com/stour for more details
